The Kansas Gold Humbug-The Suffer-

ing and Starvation on the Plains.

We have already published a brief telegram relative to the suffering and starvation of the

Pike's Peak emigrants on the Plains. The following correspondence of the St. Louis Dem-ocrat gives fuller particulars:

Saturday evening last, 7th inst., the first and long-looked-for mail and passenger-stage of the Leavenworth and Pike's Peak Stage Com-

pany arrived here. It was out twenty days from Leavenworth, but now that the way sta-

tions are formed, and bridges made, it is thought fourteen or fifteen days will suffice to

make the trip. The new route thus laid out, via Republican Pork of Kansas River, seems

Several intelligent gentlemen who have arrived by that route, told me they themselves were so long on the way—over sand and hills, and without a road at all, that they were reduced

almost to starvation-lived ten or fourteen day

almost to starvation—investigation or fourcess any upon prickly pears and such wild onions and edibles as they could pick up, and also that they helped bury several persons who died from starvation. The agent of the stage company

brought us in word that he picked up a starving man some fifty miles from here, (or an Arrapa-hoe Indian brought him to the stage line,) who had come across from the Smoky Hill route,

(which his company had started on and tried to follow;) that when found he was in a most

wretched condition. His name is Blue, and he is from Whiteside County, Illinois. There

were three brothers of them—first, one died, and the two remaining ate from his body, after they had been rendered senseless by emaciation. The second brother died and was nearly

eaten up by the survivor. The stage agent went out and buried the remains of the second

or youngest of the brothers, but could not find

one party which lost seven out of a train of

This is in addition to those who turned back before reaching here, induced by the intelligence received from others on their return. Probably as many more reached here in that time; but I think there are no more people in the whole mining country to-day than there were on my arrival here a month ago. The towns (or villages which they all are, and small ones too,) seem quite

They are already about as civil as the whites here, and far more temperate; indeed, I've not seen an intoxicated Indian in the mining region. of which the visitor sees the marble sarcopha-gus, in one of which reats the remains of the

immortal statesman and patriot. The inside of the recess is in a sad state of delapidation. The plastering is falling off, the birds have

built their nests in the recesses, and the whole

appearance of the place is that of utter neglect. Over the entrance is the inscription: Within

this enclosure rest the remains of Gen. George Washington. As the Sir Knights approached

the spot every head was uncovered, and all seemed to feel that the spot whereon they stood

was holy ground.

The visitors then passed on to the old dilapidated tomb where Washington was first inter-

red, and whence his remains were removed to their present resting place. The entire front of the tomb has been removed, and the spot is

A MARE'S NEST AT THE POLICE COURT .-Yesterday morning a case came up for hearing in the Police Court, in which Henry L. Davis was arraigned for selling lottery tickets. The case was dismissed by the Court on the following grounds.

The Police Court and Common Pleas bave concurrent jurisdiction of this class of cases. 21 West Fourth St., bet. Main & Walnut; The law of March 18th, 1831, requires that either the prosecuting witness must indorse the information as security for costs, or the Court may order the testimony before the SPRING, HAIR, COTTON AND HUSK Grand Jury. This rule, inaugurated in the Police Court. by Judge Lowe, yesterday, will, while it relieves the Court of many burdensome cases, also go far in permitting criminals to escape from the meshes of the law, as few prosecuting witnesses, especially the arresting officers, care to make themselves liable for costs. On the other hand, it will prevent many malicious presecutions.

FULTON COMPANY IN THE FIELD FOR CITY RAILROADS .- A singular phase of the prevailing conversion of the public mind to the immediate necessity of street railroads for this city, is the fever heat excitement in their favor, evinced by the fervent people living on that strip of land from Columbia and Pendleton down to the Flat-iron square in the Third Ward. Would it be believed that a petition has been extensively signed in that quarter for one of the routes fer a passenger street railroad! On Friday night last quite a spirited meeting of the Fultonians was held, Mr. PEOPLE'S LINE

An adjourned meeting was held at the Ferry street school-house last night.

THE Fulton petition asks a grant of privilege to construct a passenger Railroad tract, (double at such points as needed) beginning at the east line of the 17th ward down to Washington street, and by Third and Martin streets, to Pearl or Congress streets to east, side of Broadway, opposite Lower Market street. Also a line from said Congress street, up Lawrence street to Fourth street, along Fourth to Broadway, along Broadway to Fifth, thence to Fifth street Market space, there connecting with other street railroad lines centering there,

Pike street, and down Pike street to connect with the track at Congress street. This project has also in view the condemnation to the city of the Wooster Turnpike Road, the main thoroughfare of Fulton, which long since should have been a city street, also that the Company who may be assigned thi route, in a reasonable time shall bowlder that street—the ourbs and gutters to be laid at

LATEST PRON THE SEAT OF WAR .- The belligerent Emperors, now in battle array in Northern Italy, are at least not in hot water, but from incessant rains have a Deep-Po be tween them.

The news by the Hammonia tells of some skirmishes, but of no battles; that the Austrians had withdrawn from Voghera to Casteggio. The former is a walled city of Piedmont, nineteen miles E. North-East of Allessandria. Casteggio is still further East six additional miles, and is the site of ancient Clastidium which, in the Second Punic War, surrendered to Hannibal. Near it is the "Hannibal Spring."

It would be curious if Louis Napoleon, now at Allessendria, should on this plain meet the Austrians where, at the Battle of Monte Bello, fifty-nine years ago, the French, under the Marshal Victor, routed the Austrians; or at Marengo, two miles distant, achieve a victory like that of his uncle, of 14th June, 1800.

Atlesandris, the French Emperor's headquarters, is represented to be at this time a fortress of the first rank, finished in all its parts, garrisoned, provisioned, and as amply able so sustain a siege, as any place in Europe The Austriana threaten the bridge near Stradella, on the Po, but that is but a feint to draw their opponents into Lombardy.

AN ITEM FOR OUR FIREMEN.-There was grand parade of the Fire Department of Charleston, S. C., recently participated in by the municipal authorities and fourteen Compantes, numbering some eleven hundred men The most interesting occasion was the trial of the engines of the several companies. We append the list of the throwing:

Independent (of Columbia) Button. Phoenix, Jeffers Vigilant, Jeffers Hope, Button Germania, (of Savannah) Smith. agle, Button.
fariot, Hunneman

forman, Agnew
foung America (Savannah) Hunneman foung America Con-Etna, Hunneman.

Etna, Hunneman.

Washington, Hunneman.

Palmetto, Pine & Hartshorn.

Charleston, Jeffers.

It will be seen that the Button took the pre mium, being ahead of all competitors, maintaining the high reputation which engines have carned for excellence and po The account does not state through what sixed norzies the engines played, but we presume it was a 1% inch one, that being the size usually amployed in such trials. We are rather inclined to think that our own admirable engines could surpass the height attained at Charleston .-

And we are rather inclined to think that ou engines (steam fire) could surpass any thing and every thing you've got in Pitteburg. As to volume of water, we've got one engine that will exceed the whole of Pittsburg hand-force in the given time, say of one hour.

By receipt of papers from the States I per-ceive that the tide of emigration hitherward is very great. The number of arrivals here to-day and for the past few days shows an in-crease; but the tide seems to me equally strong in the homeward-bound direction. Most, or District, Indiana.

Dr. Gro. W. Phillips, Cincinnati, Ohio, Having used several small bottles of your "Cough Syrus, personally and in my family, and having seen its effects on others, in numerous instances of severe cold and coughs, I mest cheerfully recommend it as an infallible remedy in all such cases. If this Syrup were in general use, I confidently believe a large majority of the colds, accompanied by coughs, that now seeminate in Consumption, would be effectually arrested. In fact, I can see no necessity for any, who can obtain this remedy, being thus afflicted.

Respectfully yours, in the homeward-bound direction. Most, or very many of those now returning go by skiffs, dug-outs, etc., upon the Platte, the water of this river being now in a good navigable state, does stream, for such craft.

About fifty boats of one kind and another sailed in the past week, with an average of four or five persons in each. It is estimated that 2,500 persons have left here for home in the last twenty days.

Passing out of his house the surroundings were visited. Across the path to the garden lay a large tree, which had fellen and appeared to have lain there for months. The garden gate was closed, and inside stood a venerable negro peddling Mount Vernon canes, flowers, &c. The servants houses were the picture of decay, and those which were occupied had each a family of from two to five little negroes, besides their father and mether. The portice of the mansion house was shored up to keep it from falling to pieces, and the whole place wore a sad, slokening appearance.
